

REDUCED SODIUM FOODS - Feline (In order of decreasing sodium content)

1. These lists are not exhaustive.
2. Don't assume that the canned and dry versions of a food will be similar in nutrient content.
3. Different flavors of the same food can be very different in nutrient content. If these lists specify a flavor, they refer to that flavor only.
4. This list was updated 9/2013. Dietary nutrient content can change very often so check back on the HeartSmart website (www.tufts.edu/vet/heartsmart) or with the manufacturer frequently.

Product	kcal/can or cup	Na (mg)
Hill's j/d (dry)	506	79
